Bicycle Storage Feasibility in Shelters

Shelter Monitoring Committee

October 19, 2022

Bicycle Storage

2

Current Bicycle Storage in HSH Shelter Programs

32 sites evaluated (19 adult, 2 TAY, 11 family)

	Number of Programs	Without Storage	With Any Storage	Adequate Storage	Inadequate Storage (none or not enough)
Adult	19	5	14	11	8
TAY	2	1	1	0	2
Family	11	5	6	7	4
TOTALS	32	11	21	18	14

Bicycle Storage

Trade-Offs for Requiring Bicycle Storage

32 sites evaluated (19 adult, 2 TAY, 11 family)

- Numbers are from initial assessment and subject to change upon deeper exploration of solutions

	Inadequate Storage (none or not enough)	Internal Solution	Trade-Off: Remove Beds/Guest Room	Trade-Off: Remove part of community space	Requires Funding	No Solution
Adult	8	6	3	0	6	2
TAY	2	2	1	1	2	0
Family	4	4	4	0	0	0
TOTALS	14	12	8	1	8	2

Bicycle Storage

4

Recommendations

- Trade-Offs are too great (funding and loss of beds) to require this storage
- HSH likely will not be able to comply with a requirement if unfunded and impacts bed counts
- HSH could explore how to increase the number of sites with bicycle storage, implementing solutions that do not require new funding or loss of beds AND continue to prioritize bicycle storage for newly developed programs in the future
